## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

### ***IN THE CLAIMS***

In claim 10, change "The method of claim 9" to – The method of claim 1 –  
Cancel claims 12-16, 18-24, and 26.

2. The following is an examiner's statement of reasons for allowance:

Claims 1-7 are allowed over the references of record because none of these references disclosed or can be combined to yield the claimed invention such as a method including the steps of forming a phase change material sandwiched between a pair of horizontally spaced electrodes formed on said substantially planar surface, and forming two pairs of said horizontally spaced electrodes for two spaced cells at the same time, and, as recited in claim 1.

Nicolaides 3,820,150 discloses one method, as seen in figure 1 and close-up figure 3, that includes a step of forming two pairs of horizontally spaced electrodes 23 and 25

Art Unit: 2826

simultaneously. Note that phase change material 30 is connected (but not sandwiched) between electrodes 23 and 25. In a separate method (see figure 2) Nicolaides discloses a step of forming phase change material 30 sandwiched between a pair of electrodes 24 and 26. However, electrodes 24 and 26 are not formed at the same time, nor are they horizontally spaced.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
